Putting out the fire juggler wasn't on Mickey and Minnie's hot list.

It's safari, so good, as Mickey and Minnie outrun a turtle in the jungle.

MICKEY AND MINNIE HAVE NEVER FACED A MYSTERY THIS BIG.

"A date at the circus, I can't wait!" says Minnie to Mickey. But when they get there all the performers have disappeared! "We've got to find the villain who did this!" says Mickey. So off they go, wearing magical costumes that give them powers to make it through six levels of frozen tundras, haunted houses and more. Can they really bring the circus back to town? "Come along and see!" exclaims Mickey.

Mickey and Minnie must tame the lion before they become the mane course.

ATTENTION!

When you see this  it means the story is based on fact.

It is real.

We didn't make it up. The stories that don't have an  are

just products of our overactive imaginations.

Ask the Boss Lady

Where you ask the president of Nickelodeon, **Geraldine B. Laybourne**, anything you want.

Do you like sports?

As a kid, I didn't. I never thought of myself as an athlete, and my family wasn't big on watching sports either. When my son played football in high school, I experienced the joys of being a sports fan. Now I am an avid Rangers, Giants, Knicks, and Mets fan. I also love skiing with my family, and I have a ton of fun trying to keep up with my daughter schussing down the slopes.

What was your most embarrassing sports experience?

I went bowling on my first date (I was in eighth grade), and I threw 19 gutter balls in a row.

What do you do in your office?

I talk on the telephone, read mail, write my Boss Lady column, watch TV, eat tuna sandwiches, meet with people and think up fun things for kids, doodle, meet stars (all Nick stars have been in my office, and so have people like Mary Tyler Moore and Muhammad Ali!), and play with my puppet theater from Weinerville.

Have you ever been on a show on Nickelodeon?

I was a guest on *Total Panic* on Presidents' Day in 1990. They made me play hopscotch with high heels on. They gave me a bunch of roses and made me feel like I was queen for a day.

Do you have any questions for the Boss Lady? Send them to: Ask the Boss Lady, NICKELODEON MAGAZINE, 1515 Broadway, 50th floor, New York, NY 10036.

Annoying Gym Class Song

(Sung to the tune of "Take Me Out to the Ball Game")

It's traditional to sing the National Anthem before baseball games. Start a *new* tradition by singing this song before gym class.

Take me out of this gym class,
Take me out of this place.
A note from my doctor I have right here.
I signed it myself, so don't look-ver-y-near,
And it's fake, fake, fake, for the school nurse,
A tummy ache I do claim.
She says "Kid, I'm send-ing-you-back
to that dodge-ball game!"

Pal or Pumpkin?

.....
How can you tell if your best friend is a pumpkin? We offer you this handy checklist to help you decide if your buddy is actually a seasonal squash. Three or more checks mean your friend will probably be all a-glow come Halloween night.
.....

- ☐ Spends a lot of time sitting on the front porch.
- ☐ Likes to play squash.
- ☐ Sweats at the sight of piecrust.
- ☐ Hates the story of Peter, Peter, Pumpkin Eater.
- ☐ Loves the story of Cinderella.

On Your Sitzmark

Instead of straining your muscles, flex your brain. Here's your chance to show how much you know about the world of sports.

Directions: Circle the correct answer for each question.

1 Which of the following is a real move in skateboarding?

- a. frontside bluntside
- b. rightside big boo-boo skidder
- c. upside downside molar rearranger

2 In tennis, the yellow fuzzy thing is:

- a. the ball.
- b. Andre Agassi's hair.
- c. either a or b.

3 Icing is:

- a. a defensive shot in hockey.
- b. dumping a water cooler over the coach's head.
- c. what people say when they volunteer to sing the national anthem.

4 An inning is:

- a. a basketball player's belly button.
- b. a portion of a baseball game.
- c. what happens when you fall just short of winning.

5 Zambonis are:

- a. large machines that resurface ice skating rinks.
- b. the official pasta of the Italian soccer team.
- c. knee injuries common to football players.

Get Set, Go!

Hey, it stinks up here.

- 6 A triple lutz is:**
- a. an extremely uncoordinated person.
 - b. a difficult figure-skating jump.
 - c. picking three losing racehorses in a row.

- 8 At the 1900 Paris Olympics, which of the following was an official sport?**
- a. SPUD
 - b. tug-of-war
 - c. monkey in the middle

- 7 When someone mentions a "scrum," she is talking about:**
- a. dirt that gets in a softball player's shoes.
 - b. a rugby play in which opponents crouch together and struggle to gain control of the ball.
 - c. the act of pinning an opponent in thumb wrestling.

- 9 Hurling is:**
- a. a stomach illness common to uneven-bar gymnasts.
 - b. the inventor of the bobsled (full name: Erhard V. Hurling).
 - c. an Irish game similar to field hockey.

- 10 This diagram represents:**
- a. the winning move in the Grandmaster's Freestyle Tic-Tac-Toe Championship.
 - b. a football play.
 - c. how athlete's foot attacks your skin.

- 11 At a baseball game, the person next to you says, "Do The Wave." You should:**
- a. style his or her hair.
 - b. make "bye-bye" gestures with your hand.
 - c. stand up and sit down along with the crowd.

- 12 Sitzmarks are:**
- a. impressions left in the snow when a skier falls backward.
 - b. what fans leave on their seats to reserve their places.
 - c. bench sores of second-string players.

Answers on page 77.

Happy, Happy! Joyner, Joyner!

An interview with
Jackie Joyner-Kersee

We ran into **three-time Olympic gold medalist Jackie Joyner-Kersee** in St. Louis, a few days after she had broken the U.S. record for the 100-meter hurdles. Breaking records comes naturally to Jackie—she's broken at least 19 of them, and she's **the world-record holder in the heptathlon.**

Nick Mag: How many hours a day do you train?

Jackie Joyner-Kersee: Anywhere from two to eight.

NM: Were you always good in athletics?

JJK: Growing up, there were girls who were better than I was. I wanted to compete with them, so I worked hard.

NM: When was your first serious race?

JJK: When I was nine. I finished last in the 400-meter race. I knew then that racing wasn't about coming in first. It was about knowing that each time I'd get better.

NM: What was the first race you ever won?

JJK: I can't recall. I really can't. Winning wasn't the most important thing to me. I learned a lot from *not* winning. There isn't much that I could learn from winning, outside of being happy and being glad that I accomplished something. Losing a race, and understanding why, allows me to go on to win.

NM: What were your favorite sports in gym?

JJK: Kickball, dodgeball, and running. We would have relay races every day, the girls against the boys on the playground during lunch.

NM: Did you have trouble with any classes?

JJK: Home economics. I got a D.

NM: What were your favorite subjects?

JJK: Math and science. I liked to solve word problems.

NM: Did you have a nickname as a kid?

JJK: Joker Jackie, because I liked to joke. Also, "Headquarters" because I have a big forehead. When I was 10 or 11, I was a cheerleader, and one of my cheers was, "We're all wacky, wacky. My name is Joker Jackie."

NM: Where do you keep your medals?

JJK: In a box. It might not sound like they mean anything to me, but they really do. I just don't showcase them.

NM: Growing up, did you have heroes?

JJK: I still do. I admire Rosa Parks, Babe Didrikson, and Wilma Rudolph.

NM: Do you eat candy?

JJK: Yes...too much! I like hard candy.

NM: What do you eat before a race?

JJK: A lot of pasta. For breakfast I might have pancakes. I have to be careful since many foods can give me an asthma attack. You name it, I'm allergic to it.

NM: Do you have any advice for kids who aren't great athletes?

JJK: Don't let something stop you. With my asthma, there are days when I'm struggling just to make it through. That's the challenge of wanting to be the best. Not every day is going to run as smoothly as you'd like it to run. But I don't let that stop me from doing things I know in my heart I can do.

NM: What is your most important accomplishment?

JJK: Graduating from UCLA. The Olympics were fun, but it was more important to me to graduate from college.

NM: If you could choose another time and place to live, what would it be?

JJK: Ancient Greece, in the time of gods and goddesses.

NM: How many pairs of sneakers do you have?

JJK: A lot! More than a hundred. I wear out my shoes in a week or two, so I'm constantly changing shoes. I also collect famous people's shoes.

NM: Whose shoes do you have?

JJK: Monica Seles's and Michael Jordan's. I have Jim Kelly's football, too.

NM: Do you ever think about running *around* the hurdles instead of over them?

JJK: We do that all the time in practice.

NM: Have you ever tripped over your own shoe laces?

JJK: No.

NM: Do you take the express lane in grocery stores?

JJK: No, because I never have 12 items or less.

...Hey, just what is a heptathlon?

The heptathlon is a seven-event track and field competition that takes place over two days.

The first day, four events are held:

- the 100-meter hurdles
- the high jump
- the shot put
- the 200-meter dash

The second day, three events are held:

- the long jump
- the javelin
- the 800-meter run

Competitors are judged on each event. At the end of the competition, the person with the highest total score wins.

She's the world's greatest laugh-lete.

Behind the Seams

Put away your x-ray specs. Here's an inside look at a basketball, a tennis ball, and a baseball, and the steps it takes to make them. 

the basketball

1. The bladder, the innermost part of the ball (above left), is inflated with air.

2. The bladder is wound with more than a mile of thread. This keeps the ball round.

3. Rubber panels are glued on to make the inside stronger.

4. The ball is put in a hot mold to form the "channels" where the orange panels will be placed later. (On the finished ball, you see these channels as black lines.)

5. The orange leather sections are put on the ball by hand.

• There are more than 26,000 bumps on the surface of a basketball.

Hoops, there it is.

the tennis ball

1. Two rubber chunks (see the chunk in top center of photo) are stamped into cup shapes.

2. Just before the cups are glued together, air is forced inside to pressurize the ball. This helps make it bounce.

3. The two yellow felt pieces are glued on. (Heat and pressure are applied so the felt will stick.) The ball goes into a machine that looks like a big laundry dryer, where it is steamed and fluffed.

4. The company's name is printed on.

• For the U.S. Open, magnetic metal powder is added to the materials in the ball's core. When the ball lands outside the lines on the court, the electronic line-calling system detects this powder, and a buzzer sounds.

the baseball

1. A cork center is molded onto a layer of black rubber. (See bottom center of photo.)

2. Two black rubber cups are sealed together with red rubber. Then the entire ball is covered in red rubber.

3. Layers of gray and white woolen yarn are wound tightly around the center. A layer of white thread finishes it all off. (The thread is not pictured.)

4. Glue holds the cowhide cover in place. The leather is stitched together by hand with 39 inches of red thread. There are exactly 104 stitches on each ball.

• The average life of a Major League baseball is six pitches.

• All baseballs in the Major Leagues are rubbed with specially harvested mud.

AH-CHOOO!

Ah-Chooo was an ancient martial art practiced by Histamine warriors and used to defend their mighty Sinus Empire during the Hayfever Rebellion.

Now YOU can learn this art's long-forgotten secrets, when you come to...

Sensei Greensleeves' School of Ah-Chooo

Ah-Chooo can change your life with its repulsive powers! **Ah-Chooo** is nothing to sneeze at!

Study **Ah-Chooo** and you will learn such exciting moves as:

- ★ the "Pick and Roll"
- ★ the "Blow-Out"
- ★ the "Big Green Monster"
- ★ the "Wad of Terror"
- ★ the "Wipe and Go"
- ★ the "Drip of the Dragon"

All this knowledge will be yours when you meet with Sensei Greensleeves and his able, handpicked instructors:

- ★ Harry Nostril
- ★ Dee Congestant
- ★ Al Urgee
- ★ Hank Ercheef

Students successfully completing their **Ah-Chooo** education will perform in the Rite of the Sinus Passage.

Don't blow your money somewhere else. Come to Sensei Greensleeves. After all, who *nose* more about **Ah-Chooo**?

★ NOTE: Please bring a box of tissues to your first class. ★

Whistle While

R Without referees and umpires, professional sports would be total chaos. Every hit would be a home run, every basket would be worth 10 points, and fans would have nobody to yell at.

Robin Sayers interviewed five of the best in the business:

Terry Cooney (⚾), of Major League Baseball, **Dick Bavetta** (🏀), of the National Basketball Association, **Bunny Williams** (🎾), of the United States Tennis Association, **Don Koharski** (🏒), of the National Hockey League, and **Jerry Markbreit** (⚽), of the National Football League.

Nick Mag: Did you feel silly the first time you put on your uniform?

DB: No, I never felt silly. I was very proud, as a matter of fact.

JM: I didn't know that I needed a garter to hold my socks up, so when I walked out onto the field, my stockings fell down. Everybody laughed. Now, after 39 years of officiating, I'm an expert at getting dressed.

NM: Have you ever been hurt on the job?

BW: Sure. You do your best to get out of the way, but sometimes you get smacked with one on the leg. Those balls are coming pretty fast, probably in the neighborhood of 100 miles per hour.

DK: Oh yes. I've had my nose broken three times, my foot once, and my leg once.

JM: I've pulled muscles, I've had my feet stepped on, and I've been hit in the head. I've really been banged around.

NM: What's the funniest thing that's happened to you in the course of your job?

TC: I was in Oakland, and I was at second base. A line drive was hit straight at me, but I couldn't find the ball. All of a sudden, I felt it. It was inside my jacket, under my armpit.

BW: We do a coin flip in the beginning to figure out who's going to serve. So I was flipping the coin, and there were players around me who were holding cups of Gatorade. A player stuck out her cup, and the coin went "boomp," right into the bottom of her Gatorade.

DB: When I first started to referee, I was coming out after a game and there was a crowd of people waiting. They said, "There he is! There he is!" So I kinda got all pumped up, and people were yelling for my autograph. I signed my name for a young gentleman. He looked at the name and said, "Who are you?" I said, "I'm the referee." He ripped up the autograph and said, "We thought you were a player!"

FACE TO FACE:
NBA ref Dick Bavetta holding court (here and above).

Do You Work

NM: What's it like being booed by more than 10,000 people?

JM: If it's only 10,000 booing you, it's wonderful. But usually it's 50,000 or more, and it's not a good feeling.

BW: When you're doing your job, you're not really aware of it. I think all umpires have very thick skin.

DK: You brush it off. It's almost a part of the job. We're like the president or the prime minister of a country. No matter what decision we make, it's not going to be a popular one.

DB: It's only a game. It doesn't bother me in the least.

NM: Have you ever admitted to a player or a coach that you made a bad call?

TC: No.

DB: Absolutely. Players, coaches, and fans learn to respect you more when you're honest enough to admit you made a mistake.

NM: What's the worst reaction to a call you ever got?

JM: I made a call in Buffalo once, and the crowd started chanting my name. They continued to do it for the whole second half. It was not pleasant.

DK: Fans littering the ice. One time we had about a 10-minute delay because things had to be picked up off the ice—programs, cups, hats.

PATH INTERFERENCE?
Jerry Markbreit
between the lines.

NM: Do you have to get your eyes examined?

JM: You have to take an eye test when you come into the league.

TC: Every year we have a physical. And also an eye examination.

DB: Yes. And I'm proud to say that I passed very well—the fourth time!

NM: Have you ever been caught on TV yawning, sneezing, hiccuping or otherwise embarrassing yourself?

TC: Yes. Blowing bubbles.

NM: Who settles your personal disputes at home?

BW: The umpire comes out in me.

SAFE! Terry Cooney,
at work and at home.

JM: My wife. She won't allow me to be bossy at home, which is hard because when you're an official, you're very bossy.

NM: If one day umpires were replaced by robots, what advice would you give them?

ORDER ON THE COURT:
Bunny Williams,
her life on the line.

TC: Keep your head down, and call them right.

BW: To listen, most of all. I think first and foremost to listen. To communicate. To be honest, to be fair, and to know the rules.

DB: I would say not to take yourself too seriously, be in the best shape you could possibly be in, and enjoy it for as long as it lasts.

DK: Make sure you have eyes in the back of your head, and never close them.

NM: Every time you see a zebra, do you think of your job?

JM: Yes, I love zebras! I have zebras all over my house. People refer to us as zebras. When people see me, they ask me if I have my stripes on underneath my regular clothes.

DB: No, I think of the zoo.

Can I be a ruff-eree?

IN THE RINK:
Don Koharski (here
and below), having
an ice time.

OVERTIME

NM: Have you ever felt lazy and wanted to hire a maid to clean home plate for you?

TC: I don't know if that's legal or not. I don't think there's a plate umpire who would do that. I mean, he's responsible for that plate himself.

NM: Is it true you're the first NHL ref to land a triple axle jump during a game?

DK: Oh, gosh, no! I could maybe try one spin, but I'd probably fall down.

NM: What other jobs do National Football League officials have?

JM: We're allowed to have another job because

all our games are played on weekends. There's a longshoreman, an optician, businessmen, and professional men, all of whom have been involved in officiating their whole lives.

NM: Which city has the worst basketball fans?

DB: I think there are 27 cities that tie for first on that one.

NM: Do you ever have to go to the bathroom in the middle of a game?

BW: It does happen now and then, but if you're smart and don't have two cups of coffee with breakfast, you're usually okay.

An Award-Winning Award Contest

Getting a trophy for **football** or **bowling** is nice, but what about trophies for the more important things in life? For instance, how about an award for this schoolroom skill?

Chairman of the Bored

For Outstanding
Balance and Chair-Leaning
Ability Above and Beyond
the Pull of Gravity

To enter our contest, choose an activity in your daily life that you think deserves an award. It can be something you do at home or in school, like talking on the phone or passing notes.
THEN FOLLOW THESE STEPS:

Come up with a name for the award and tell us what it is for.

Describe what the trophy should look like, or draw a picture of it.

Send your ideas to:

Award-Winning Award Contest
NICKELODEON MAGAZINE
1515 Broadway, 50th floor
New York, NY 10036

Please include your name, age, address, and phone number. Remember, we cannot return your entry. We must receive it by November 30, 1994.

We'll print our favorite award ideas in a future issue. The first-prize* winner will have his or her award made into a trophy by the award-winning designers here at Nick Mag! Other winners will each receive a *Nickelodeon GUTS All-Star Special* home video and more Nick stuff.

All entries become the exclusive property of
NICKELODEON MAGAZINE.

How about a gold-plated
fire hydrant?

Gym Class Explained

Next time some maniac in the gym is about to hurl a big rubber ball at your head and you're wondering why you have to play these games, consult this chart.

Dodgeball

THE GOOD PART

Teaches you to duck

THE BAD PART

Bullies usually win

How it helps you later in life

Shows you that it's better to give than to receive

Kickball

Easier than kicking a baseball

No kickball scholarships to college

Prepares you for a career in Broadway musicals

Gymnastics

Get to go barefoot

Splinters

Keeps you well-balanced

Relay Races

Get to spread the blame if you lose

People yell at you

Teaches you how to pass the buck

Obstacle Course

Get to pretend you're on *GUTS*

Rubber tires smell funny

Helps you learn to overcome life's obstacles

And they taste funny, too.

Scooters

Get to sit through gym class

Fingers get run over

Trains you for a career as an auto mechanic

Ua Bb

Make-your-own Tales From The Boiler Room

as told to Betsy Loreda

I'm a scaredy cat.

I'm Edgar, the custodian at Usher Middle School. I know everything that goes on in this creepy place, and **my tales will make you SCREAM!** I was going to tell you **three Halloween stories**, but plans have changed due to an unfortunate accident. A boiler blew up and all the pages of my stories are mixed up. Can you help put them back in order? Pick a **beginning**, a **middle**, and an **end** to make up a story. There are 27 possible combinations. Try to figure out what the three original stories were. It will be much more fun than trying to put the principal back together. **I told him not to come down here!**
(Answers on page 77.)

Beginnings

A

Ted and Jess agreed—there was something strange about their home economics teacher, Ms. Todd. And something even stranger about the “mystery meat” she was always cooking. It smelled like dirty gym socks and tasted worse. The only kid who would eat it was Bram, but he’d been acting weird ever since he got the lead role in the school play, *Dracula*.

One day, Ted asked, “What is this stuff, anyway? Foot cheese?”

Before Ted could blink, a large kitchen

knife flew, point first, into the counter, a millimeter from his thumb. “Oops! Did I do that?” Ms. Todd said. “Sooo clumsy!”

Jess and Ted figured they’d better find another way of solving the meat mystery. First, they needed to investigate the big fridge Ms. Todd had declared “off-limits.”

So after school, Ted snuck inside the home ec. room and cracked the refrigerator door. Cold air and a sweet, rotten odor drifted out. Ted opened the door wider...

B

Ted and Jess were thrilled when they got cast in Usher Middle School's annual production of *Dracula*. But soon, weird things began happening in rehearsals. Students started whispering that the play was cursed.

Big black bats were seen backstage. Dissection frogs, class pets, and the school's sloth mascot vanished. And cast members complained of falling asleep in the dressing rooms and awakening with unusual "bug bites" on their necks. Even Ms. Todd, the home economics teacher and drama coach, started acting funny.

Ted told Jess with a shiver, "I caught Ms. Todd backstage eating flies."

Was it just Usher up to its old tricks? Or were all these freaky events the work of Bram, the sinister new kid in school, who was the star of *Dracula*? After all, he *did* keep asking Jess about her blood type.

One afternoon, Ted showed up early for rehearsal. He was alone backstage when he heard a scratching sound coming from the prop coffin. Ted approached the coffin. Slowly, slowly, he lifted the creaky lid...

C

The whole town of Lovecraft showed up for the opening of the new Usher Middle School. Except for the accident at the ribbon-cutting (the Mayor is doing fine with nine fingers), everything went smoothly.

But later Jess and Ted began noticing a series of strange incidents: Eerie messages, like "You're all ghost bait!" were broadcast over the intercom. Doors were locked by unseen hands, trapping kids in home economics. And desks skidded across classrooms all by themselves.

Bram, star of *Dracula* and son of the architect who built the school, claimed to know a secret, but he wouldn't talk. Then one day, Ted saw Bram look around nervously before stuffing something in a locker. Ted vowed to find out what Bram had hidden in there.

Ted decided to look in Bram's locker while Bram was in gym. Using hefty bolt cutters from shop class, Ted snapped the lock. He threw open the locker door...

1

Middles

...and inside, asleep in his *Dracula* cape, lay Bram. Bram's eyes popped open! He glared at Ted with eyes that glowed a burning, bloody red. Ted fled.

That night there was a dress rehearsal for *Dracula*. Jess and Ted were alert for danger. Sure enough, the rehearsal was soon shattered by the screams of one of the actors. "Bram bit me!"

Bram stormed across the stage, snarling and baring his bloody fangs. The cast scattered. Jess and Ted faced the

vampire alone.

Thinking fast, Ted reached for a wooden stake and plunged it into Bram's chest—but it was just a prop made out of papier-mâché. Ms. Todd appeared, and she threw herself on top of Ted, growling and biting.

Laughing crazily, Bram ran out the backstage door, with Jess hot on his heels. Jess chased Bram down the stairs, through empty, echoing hallways, and through an open door...

2

...and stared in horror. A skeleton! Ted stood frozen—until the skeleton smiled a hideous grin. Ted bolted away.

Later, Ted and Jess ambushed Bram in the gym. While Jess held Bram in a soccer net, Ted forced Bram to talk.

"The school was built over the graves of witches burned at the stake," Bram confessed. "Now we're all *doomed*!" To prove it, Bram showed them a map: The graves lay directly under the home ec. kitchens, a boys' bathroom, and the boiler room.

After school, Jess and Ted decided to search Usher to try to find the source of its evil power. Eventually they split up. Bad idea, thought Jess a minute later. She went back to look for Ted, but he had vanished. A voice seemed to whisper to her from behind a closed door. Jess called Ted's name. Silence. Fearing her friend was in danger, Jess plunged through the door...

3

...and there, lying atop neatly-stacked plastic containers, was a bug-eyed dead rat. Ted almost lost his lunch. Suddenly, he heard voices in the hallway. Time to run! But first he read the container labels: *"Boiler Room (fat & juicy)," "Principal's Office (put up a fight)," "Gym (tried to escape my trap)."*

Ted reported back to Jess. She was just as spooked as he was. Maybe more, because she had to stay after school to rehearse with Bram. In case of trouble, Jess asked Ted to stay, too.

Sure enough, that night, Bram stopped rehearsal to say he had to leave for his new job—checking rattraps in the school basement.

"But I haven't seen a rat in days," he said with an odd grin. "I guess something...else...is getting them first."

When Jess looked backstage, Ted was gone. All alone, Jess decided to search the dark school halls for him. Then she heard heavy footsteps behind her. Something told her they weren't Ted's. Terrified, Jess ran through a classroom doorway...

Endings

X

...and found herself in the boys' bathroom. Even worse, a stall door was open and a swirling orange cloud surrounded the toilet. Just then, Ted burst in.

Jess and Ted realized that the cloud was a doorway to "the other side," and that one of them must go in to combat the evil forces controlling the school.

"I'll go," Jess said. "I know Pig Latin." Ted got a roll of toilet paper and tied one end to Jess's waist so she could find her way back. Jess stepped into the void, and Ted started counting sheets.

In the vortex, Jess saw a bat go howling by,

singing the National Anthem. Then she noticed rat-like forms slide by, and figured they were old witches. With some Pig Latin ("Og-ay oward-tay het-ay ight-lay!") and a swift kick, Jess sent them to their final rest.

In the boys' room, Ted gasped when the 1,000 sheets came up short—ending at 968. Jess was gone! Searching desperately for Jess, Ted finally found her inside the home ec. fridge, chowing down on "mystery meat." Smiling, Jess said, "Ghost-busting always make me hungry!"

THE END

Y

...and into complete darkness. The footsteps stopped outside the door. Jess ducked behind a desk, just in time.

The door creaked opened. Two figures stood silhouetted by the hallway light: Bram and Ms. Todd! The door closed. Jess held her breathe—even when she felt something chewing on her finger. Someone flicked on the lights! Jess looked down and saw a rat. Then she looked up—and saw Ms. Todd, looming over her with a cleaver held high. Jess grabbed the rat and flung it into Ms. Todd's face. As the home ec. teacher screamed and clawed at the rat, Jess ran for the door. Bram was blocking it, but suddenly Ted threw the door open, sending Bram flying. Jess flew out of the room.

When Ted and Jess returned with the police, Bram was out cold. Ms. Todd was huddled in a corner, holding the rat. "Ever tried rattail spaghetti?" she asked, as the police edged closer. "It's sooo good!" Then she dropped the cleaver blade, neatly chopping off the rat's worm-like tail.

THE END

Z

...into the boiler room's steamy cavern. Clouds of hot air hissed from pipes and for a moment, Jess was blinded. Then something heavy and furry dropped onto her head. Just as she tried to scream, fangs scraped her neck.

Suddenly, Ted exploded from out of the mist and pulled a huge bat from Jess's neck. He flung it across the room, where it transformed into Bram.

While Bram and Ted fought, Jess reached into her backpack. Tossing aside a box of silver bullets, she found what she wanted: the wooden stake she had made that day in shop class, just in case. Jess aimed it at Bram's heart. But she just couldn't do it.

Ted fell under Bram's grip. And suddenly, Bram changed into a bat and lunged for Ted's neck. Jess drove the stake through the bat's back. Shrieking, it flopped wildly for a second before crumbling into ashes.

Together, Jess and Ted staggered from the boiler room. Jess didn't even notice Ted rubbing a nasty bite on his neck.

THE END

Number 8: Roll over and beg.

You and Your BIG MOUTH!

Five Steps to a Better Oral Report

by David Lewman

1. Create excitement

When the teacher says it's your turn to speak, have a friend jump up and introduce you this way: "And now, classmates, put your hands together and give a warm (name of your school here) welcome to (your name here), because it's time for him/her to give his/her fabulous report on (topic of your report here)!"

2. Dress for success

Wear mismatched clothing and enter on stilts. The teacher will be so distracted by your appearance, he or she won't be able to concentrate on your report.

3. Set the mood

Play loud music during your report, so that the teacher can't quite hear what you're saying. Be sure to tie the music in to your topic. Example: "Leeches thrive in Lower Frestonia, where tuba music like this is very popular."

4. Work the crowd

Like Oprah, carry a big microphone and wander around the room taking questions. Then wander around the room taking answers. When things get exciting, break for a commercial.

5. Get saved by the smell

Bring something stinky in a jar. ("Here's what leeches look like after they've been dead for six weeks.") Tell your teacher that unless he or she gives you an A, you'll open the jar and pass it around the room.

at this rate

Next time your older relatives rattle on about the good old days in sports, when ballpark hot dogs cost a nickel and every hit was a home run, stun them into silence by telling them how things will be in the future.

To give you some ammunition, we looked at some real facts from the past and present. Then we took a very unscientific formula and came up with a few guesses about what the future of sports might bring. At this rate, you'll sound just like your Grandpa in no time.

Can I be frank with you?

Price of a professional basketball player's sneakers

1962: \$12
1994: \$135

At this rate, in 2050, a pro's sneakers will cost \$350; maybe they'll come with radioactive odor eaters.

The height of the tallest NBA player

1950: 7 feet
1994: 7 feet 7 inches

At this rate, in 2050, the tallest player will be 8 feet 3 inches; and people will call Shaquille O'Neal "Tiny."

The price of a stadium hot dog

1960: 30 cents
1994: \$1.75

At this rate, in 2050, a hot dog will cost \$4.14; and a foot-long hot dog will be two yards.

The average speed of an Indy 500 race car

1955: 128 mph
1994: 161 mph

At this rate, in 2050, the average speed will be 208 mph; and the drivers will have to get a pilot's license and show in-flight movies.

The average yearly salary of a major league baseball player

1969: \$24,909
1994: \$1,062,780

At this rate, in 2050, the average yearly salary will be \$3,387,611; and in 2051, the fans will go on strike.

The number of hockey games in a season

1925: 36 games
1994: 84 games

At this rate, in 2050, the average number of hockey games in a season will be 123; and maybe by then the Rangers will have won another Stanley Cup.

NICKELODEON
MAGAZINE

WHEEL COOL

Some people think decorating a car means hanging an air freshener from the rearview mirror. But a few folks take car art far beyond bumper stickers and fuzzy dice. Keep an eye out for these amazing autos on your next road trip. 

Button Car

Dalton Stevens is nicknamed "The Button King." One night, when he had trouble sleeping, he started sewing buttons all over his pants. Decorating with buttons became his hobby, and he went on to cover his entire car with an estimated 149,000 buttons. He also has a button-covered mailbox and outhouse.

Grass Car

Gene Pool got grass to grow on his car by spraying it with industrial adhesive, spreading seeds on it, watering it, and keeping it under a plastic cover until it was lush and green. He's made other grass-covered objects, including the outfits above. If you see him, get out of his way, or he'll mow you down!

Hippomobile

Albert Guibarra built this brass-and-copper hippo over a 1971 Ford Mustang convertible. Its nickname is "Puddles," because when you push a special button, it squirts water out from a hole under the tail. Maybe he should drive it to a hippodrome.

Mad Cad

It took six years for Larry Fuente and his friends to cover his 1960 Cadillac Sedan de Ville with jewels, beads, sequins, and knick-knacks. The dashboard features antique hula dolls that jiggle and dance when the car moves, and the seats are upholstered with removable stuffed animals.

Cowasaki

Larry Fuente, who also made the "Mad Cad," above, turned his motorcycle into this divine bovine. Instead of "beep," the horn goes "moo." Larry plans to make a motorcycle-powered horse and chicken in the future. Good cluck, Larry!

Is your bicycle or skateboard decorated in an unusual way? Send us pictures of your "wheelie" cool vehicle. We'll print our favorites in a future issue. Send them to: Wheel Cool, NICKELODEON MAGAZINE, 1515 Broadway, 50th floor, New York, NY 10036. Sorry, but we cannot return your pictures.

Note: Photos become the exclusive property of
NICKELODEON MAGAZINE.

MASTER

CRASHER

by Becky Burcham

STOP PLAYING VIDEO GAMES? NEVER!

Wouldn't it be great if you
got paid to play video

games all day? John Possidente thinks so. He's a video game tester. He plays games over and over to make sure they're perfect before they get to you. It's his job. Instead of paying to play, he's paid to play.

"I check for everything from misspellings and tiny graphic errors to more complicated problems like memory conflicts," says John. "Even if a game is boring, that's considered a problem, or what we call a 'bug,' and sometimes it's enough to stop it from being released."

WORKING WITH THE MADMAN

At 8:30 in the morning, John starts playing video games on his office computer. He doesn't quit until after dinner. Visiting his office is kind of like being inside a giant video game. The lights are low, the room has a blue glow, and people with nicknames like Madman and HewDog wander in and out.

John plays a game for weeks, or even months, hunting out all the bugs and trying to crash it. (For you non-gamers out there, to "crash" a game means to find a way to freeze it by discovering a weakness in the game program.) When John gets a game from the programmers, it usually has about 500 bugs, while more complex games can have as

IN-FLIGHT ENTERTAINMENT: John takes a break from piloting his keyboard and his F-15.

many as 1,500. In a way, John is checking the programmers' work.

It's rare that a game is scrapped because it has too many problems. Only one out of 10 fails to make it past John and the other 20 crashers at MicroProse Software, the company where he works.

THE BUG PATROL

Playing as a professional crasher is a little different from playing just for fun. For instance, when hunting bugs, John must always write down exactly what he did to crash a game. If he doesn't, the programmers can't fix it. And while some problems are easy to find, others make for exciting discoveries.

OTHER GAMES JOHN HAS TACKLED: Ultimate Football and Space Kids.

"My friend Dave and I were testing the flight simulator game F-15 Strike Eagle III," John says. "The game was almost over, and we hadn't found any big problems. At one point, Dave turned his plane upside down and dove into the ocean. His plane should've crashed, but he went through the ocean, and the game turned inside out for him. I followed him down, and we flew around shooting everything from underneath the sea. None of the guns shot back because they weren't programmed to look for us under the water. That was a major bug, but it turned out to be easy to fix."

continued →

For John, playing video games is not just a job; it's his life. When it's lunchtime, John and HewDog head to the mall, grab a quick bite, and then hit the arcade. After work, John will have friends over to play some of the hundreds of games he has collected over the years. Sometimes he even dreams of video games.

"I'll dream I'm Pac-Man, and they're coming at me from all directions. Or I'm down to one city in Civilization, and the enemy is all around me," John says. "Then I wake up feeling really stressed."

GOING DEEP...AND INTO DEEP SPACE: Ultimate Football (left) and X-Com UFO Defense (above).

THIS ONE'S FOR ALL THE LITTLE PIXELS OUT THERE: Colonization and Master of Magic.

NO CRASH DUMMIES

There are fewer than 1,000 paid testers working in the United States. Some small companies can't afford to pay their testers, so they just give them free pizza and soda. But John says, "Everyone who plays games can be considered a tester. If you find something wrong with a game, you should let the company know. You're helping them make better games."

But even a dream job has its problems. For John, the problem is trying to get his parents to understand what he does all day. John says, "When my parents ask me what I do, I tell them, 'I play games and when I find a problem, I write it down.' And they say, 'Yeah, but what's the work?'"

BUGGING OUT: John kicks back and hangs loose.

If you have bug problems, try a flea collar.

DO **YOU** HAVE WHAT IT TAKES TO BE **AN ADVENTURER??**

Here's how **YOU** can find out...

Join author Mallory Tarcher and the girls of ADVENTURERS, INC. on their incredible summer of adventure.

Toni, Allison, Rosina and Susette are on their way around the world...hiking and skydiving in the Whistler Mountains near Vancouver, rafting down the Colorado River, horseback riding and braving the subways in New York City, hot-air ballooning in the English countryside, ghost busting in Spain, treasure hunting in Greece...and **YOU** can come too, when you read ADVENTURERS, INC., fun-filled, action-packed novels about girls who DO!

**HOLD ON TIGHT
AND ENJOY!**

Available wherever
paperback books are sold.

P.S. Mallory herself has tried—or is willing to try—every sport or activity her heroines try—even the ones that make her queasy!

OCTOBER/NOVEMBER 1994

All about Nickelodeon

Out Back *with* Alex Mack

Watching a TV show is easy.

It's *making* a TV show that's difficult. The four new Nickelodeon programs that premiere this fall each took about two years to make.

The creators of *The Secret World of Alex Mack* took us behind the scenes for an exclusive look at what it takes to put together a new TV series.

The new super-powered kid in school, Alex Mack.

The show you'll see

The hero of the show is Alex, a 13-year-old girl in the made-up town of Paradise Valley, California. On the first day of junior high, she gets into an accident with a truck that's carrying illegal chemicals. Once home, she discovers she has super powers that allow her to:

- transform herself into a liquid,
- send out shocking electric bolts from her hands,
- use telekinesis to move people and objects around.

The shocking truth: Once Alex has her new powers, life is never the same.

The original idea

The show was first called *High Voltage*, and it was going to be about a boy who gets super powers after a nuclear accident. Nickelodeon executives loved the idea, except for one thing: They wanted the boy to be a girl.

Writing the script

It took more than two months to develop the idea into a script. But before filming of the pilot (that's the first episode of a TV series) could begin, the show needed a cast.

Larisa goes over her lines with her acting coach.

Auditions for Alex

The creators wanted to find a girl who was smart and hip to play Alex Mack. Nearly 100 actresses tried out before it was unanimously decided to hire Larisa Oleynik, a 13-year-old from California.

Down-to-earth Larisa with the cast and crew.

Filming the pilot

Nickelodeon makes a pilot to try out an idea. If Nickelodeon likes the pilot, the show may become a series. The pilot for this show was filmed in Valencia, California. It took six days to film. When the pilot was finished, Nickelodeon loved it. But there was one big test remaining.

Kid-Testing

Nickelodeon gave a sneak preview of the pilot to groups of kids. Because kids liked it, Nickelodeon decided to make *The Secret World of Alex Mack* into a series!

The Secret World of Alex Mack premieres October 8 at 8 pm.

Take Two: Larisa and Susan Lentini, who plays Alex's teacher.

And now about those special effects.

Telekinetic Powers

Most of Alex's telekinetic powers, which let her move people and objects simply by thinking about them, are created on the set during filming. Two or three people off-camera actually move the objects, using strings, pulleys, and tracks.

Electric Bolts

The zaps Alex sends from her hands are painted right on the film.

Liquidity

Scenes in which Alex turns into liquid are filmed twice. The first time the scene is filmed on the set, without Alex in it. The second time, Alex is filmed against a huge green screen, with a special camera. A special-effects artist uses a supercomputer (like the one used to create the effects in *Jurassic Park* and *T-2*) to put the images together. He adds other special effects, and the result is that Alex looks like she's becoming a liquid. It can take three weeks to create three seconds' worth of special effects!

Super-powered puddle: Alex learns how to turn herself from a solid to a liquid.

New Nick Shows!

AAAHH!!! Real Monsters™

What it's about:

Three monsters who attend an elite monster academy, where they learn the latest scaring techniques. The monsters sneak into

Boo! (From left to right) Krumm, Ickis, and Oblina go a-monstering. The Gromble (above), the academy's scary headmaster.

houses through the toilet and practice their monstering on unsuspecting humans.

Who the characters are:

Ickis: a small, shy, insecure monster who scares people by making himself enormous.

Krumm: a happy-go-lucky monster who's known for knocking people out with a whiff of his stinky armpits.

Oblina: the smartest of the three monsters, who can turn herself inside out.

When you can watch it:

The sneak previews are **October 29** at 8 PM and **October 30** at 11 AM. It premieres **November 5** at 8:30 PM.

Inside Scoop:

- Monsters use toenails as money. Old, cruddy toenails are the most valuable.
- Monsters give people nightmares by putting fingers in people's ears and touching their brains.
- Bad monsters have to listen to piano music or opera. Really bad monsters are forced to walk through a field of daisies.

My Brother and Me

What it's about:

Kids' lives in the 90s, as seen through the eyes of Dee Dee and Alfie Parker, two brothers in Charlotte, North Carolina.

Who the characters are:

THE PARKER FAMILY:

Dee Dee, age 8

Alfie, age 11

Melanie, their sister, age 13

Jennifer, their mom, a driver's education teacher

Roger, their dad, a sports writer

AND THEIR FRIENDS: Donnell, Harry, "Goo," and Deonne

When you can watch it:

The sneak preview is **October 15** at 8:30 PM. It premieres **October 16** at 6:30 PM.

Inside Scoop:

- Arthur Reggie III, who plays Alfie, gets hiccups every day around 3 PM.
- Stephen Wernli, who plays Donnell, likes to stand on his head in the corner of the set, when nothing else is going on.

Brothers Dee Dee (left) and Alfie (right) at home.

UtoU

What it's about:

Anything you want. It's an interactive show that connects kids with kids, and kids with Nickelodeon. Everything on the show is created by kids; adults are only allowed to help out.

Who the hosts are:

Ali Rivera and Sertrone Starkes. Ali is 19, and Sertrone is 16.

When you can watch it:

Saturdays at 5 PM and Sundays at 1:30 PM, starting **November 5**.

Inside Scoop:

- One kid sent *UtoU* a design for a rocket ship. The *UtoU* staff liked it so much, they sent it to the show *SeaQuest*. Now the kid's rocket ship will be seen on an upcoming episode of *SeaQuest*.

Hosts with the most: Ali (left) and Sertrone (right).

The Big Help

BIG HELP TELETHON

The Big Help Telethon starts **October 1**! It will be a weekend-long entertainment extravaganza, with new episodes of your favorite shows and surprise celebrity guests. Watch it and learn how you can help your community on **October 15**, The Big Help Day.

BIG HELP DAY

On **October 15**, watch Nickelodeon all day for updates and special Big Help episodes of Nickelodeon shows.

Whatever You Want

Ode To Ick Contest Results

Thanks for all your icky odes. After reading them, we decided to spend the summer indoors under a mosquito net. Each winner will receive a Nickelodeon home video, plus other Nick stuff.

Winners

Mosquitoes, mosquitoes, I spray you all day
Mosquitoes, mosquitoes, please go away
Mosquitoes, mosquitoes, I splat you on the floor
Mosquitoes, mosquitoes, must you bite me more?
Mosquitoes, mosquitoes, I've endless bites
Mosquitoes, mosquitoes, you defy my civil rights.

Sean M., age 9
Augusta, Georgia

In the ocean there are Jellyfish
But there are no Peanut Butter fish
To make a Peanut Butter and Jelly Sandfish.

Heather O., age 9 1/2
Wayne, New Jersey

When I go to the beach,
I chase catfish.

Sunburn is red,
Water is blue,
I hate to go camping,
'Cause there's no place to poo.

Paul M., age 9
Boothwyn, Pennsylvania

Honorable Mentions

Poison ivy everywhere
On my legs and in my hair
Up my arms and down my back
Calamine is what I lack.

Pamela T., age 9
Cortlandt Manor, New York

I got a nasty sunburn
It hurts my little booty
If I had kept my trunks on
I'd be in a better moody.

Chad K., age 7
Redwood City, California

Jellyfish, Oh Jellyfish,
Why do you bite?
You look for your prey
All day and night
Why do you do this
To he, she, and me?
Why can't you let
The people swim free?

Niki M., age 9
Roswell, Georgia

Mosquitoes, mosquitoes
everywhere.
They're in your eyes and
in your hair.
Whenever you open your
mouth to talk,
In comes a mosquito and
takes a walk,
A mosquito is like a
blood-sucking pest.
It seems they never take a rest.

They ruin your vacation,
won't leave you alone
And always make you
want to go home.
Then you stop and think,
they're only bugs
They help the earth so let's give
them hugs.
I should stop this poem and I
think I might,
Because on my arm I'm getting a
mosquito bite.
SLAP!

Holly S., age 10
Tonawanda, New York

As I lay stretched out
On the searing sand
My friends sat around me
All with great tans.

I looked at my friends
Left and right
Then I looked at myself
And got a great fright.

I had turned red
From the sun's rays and heat
My skin was all peeling
And I looked like a beet.

Sara J., age 14
Smithville, Missouri

Name That Band

In "Name That Band" (February/March 1994), we asked you to come up with an original band name. Here are our favorite entries.

Human Pudding

Lindsey D., age 10
Cynthiana, Kentucky

The Weed Wackers

Jennifer M., age 9
Rising Sun, Maryland

Coffee on a Stick

Andrew B.
Dinwiddie, Virginia

Cover Your Ears

Natalie L., age 10
Los Angeles, California

Letters

Dear Nick Mag,
How come in the August/September issue on the Cafeteria Food Flight map you didn't put anything in Minnesota?

Molly O.
Eden Prairie, Minnesota

Dear Molly,
We will gladly report any sighting you can document. Next time you see a flying fish stick, please take a picture and send it in!

Say What?

From our June/July 1994 issue

Here's what you thought this hungry family was thinking and saying.

DAUGHTER: I like the new identity the FBI gave me—I'm a blonde!!!

FATHER: I didn't witness anything. I just wanted a paid vacation.

MOTHER: Use plenty of mustard, honey. We want to look normal.

SON: You call dressing like this normal?

Julie A., age 12 1/2
Avon Lake, Ohio

DAUGHTER: Dad, did you wash your hands before cooking?

FATHER: Yeah, last week!

MOTHER: Would you like butter on your ear?

SON: No way! Would you like a mustard moustache?

Shane G., age 8
Rochester, Minnesota

DAUGHTER: Where did the tablecloth go?

FATHER: I hope no one realized that my shirt is really the tablecloth.

MOTHER: Now you won't have to hold my hand. We're attached at the arm.

SON: I wonder when this Krazy Glue wears off.

Lauren S., age 12
Springfield, Virginia

LOG ON! and you could win!

Dear Alien

I'm QZ
and I'm from the planet
Zittlz. I know everything under,
over, and inside the sun. So ask me
a question, and I'll give you a real
down-to-Earth answer.

Dear QZ:

When is Nick going to take over Anniston Avenue Elementary School?

Martha Ann J.
Gulfport, Mississippi

Martha Ann:

Actually we took it over 10 years ago and nobody ever found out. Now you know why your teachers are so weird.

Dear QZ:

How did the sun get so much gas?

Tessa S.
Ford City, Pennsylvania

Tessa:

Because asteroids and comets are really gigantic baked beans.

Dear QZ:

Do you like to read books a lot?

Jenna B.
Bellflower, California

Jenna:

On my planet we literally devour books. We read them, then eat them raw. Why, just yesterday, I knocked off an entire encyclopedia. This is why I know everything. It's also why I wear a size 650 pant.

I don't eat books —
I eat homework.

Dear QZ:

I'm going to New Jersey. I'm scared of green flies. I don't even know what green flies are! What are they?

Nya-Qien

New Rochelle, New York

Nya-Qien:

Who knows? Look at my picture. Do I seem like someone who would be bothered by green flies?

Dear QZ:

How can I get my mom to buy me a mouse or a gerbil?

Sheena B.
Fort Smith, Arkansas

Sheena:

Leave some cheese around the house. If she doesn't get the hint, you just might wind up with mice anyway.

Dear QZ:

There's a new girl in school and I want to be her friend, but I'm too shy. What should I do?

Kelsey M.
Tualatin, Oregon

Kelsey:

I pity you Earthlings, with your meager powers. On my planet, I'd write her name in the sky in flaming roses and ultra-violets. As for you, Kelsey, just let her know that you cared enough to send this letter.

Dear QZ:

Why do we have boogers in our nose?

Ericka P.
Bayfield, Wisconsin

Ericka:

Because they fit. What do you want up there? A car?!

Do you have a question for QZ? Write to:
Ask QZ, NICKELODEON MAGAZINE, 1515 Broadway,
50th floor, New York, NY 10036. Sorry, but the
space-time continuum prevents QZ from
personally answering every letter.

HEY, HEY YOU!

has cable tv.

doesn't have cable tv.

has no idea
what cable tv is.

Nickelodeon® and other
great channels are on
cable TV! And your local cable
operator connects you!

It's **SIX** feet of gum
jaw crankin' **for you** **NOT** them!

answers

On Your Sitzmark, Get Set, Go! (Page 8)

1. A 2. C 3. A 4. B 5. A 6. B 7. B 8. B 9. C
10. B 11. C 12. A

Tales from the Boiler Room (Page 50)

The three original stories are:

Story 1: Sections A, 3, Y

Story 2: Sections B, 1, Z

Story 3: Sections C, 2, X

Goof Troupe

Due to a surveyer's error, we overlooked mentioning the makers of the beautiful Cosmopolitan World Map, © 1994 by Rand McNally, R.L. 94-S-228, used on our August/September cover.

Jessica C. from Wilmette, Illinois, noticed that on the answer page in our Holiday 1993 issue we said that Last Minute Gifts was on page 22. It was really on page 30.

I give credit where credit is due.

Credits
